Washington Bullets is written in the best traditions of Marxist journalism and history-writing. It is a book of fluent and readable stories, full of detail about US imperialism, but never letting the minutiae obscure the larger political point. It is a book that could easily have been a song of despair – a lament of lost causes; it is, after all, a roll call of butchers and assassins; of plots against people’s movements and governments; of the assassinations of socialists, Marxists, communists all over the Third World by the country where liberty is a statue. Despite all this, Washington Bullets is a book about possibilities, about hope, about genuine heroes. One such is Thomas Sankara of Burkina Faso – also assassinated – who said: ‘You cannot carry out fundamental change without a certain amount of madness. In this case, it comes from nonconformity, the courage to turn your back on the old formulas, the courage to invent the future. It took the madmen of yesterday for us to be able to act with extreme clarity today. I want to be one of those madmen. We must dare to invent the future.’ Washington Bullets is a book infused with this madness, the madness that dares to invent the future.

Vijay Prashad

VIJAY PRASHAD
WASHINGTON BULLETS

“Like his hero Eduardo Galeano, Vijay Prashad makes the telling of the truth lovable; not an easy trick to pull off, he does it effortlessly.”
— Roger Waters, Pink Floyd

“This book brings to mind the infinite instances in which Washington Bullets have shattered hope.”
— Evo Morales Ayma, former President of Bolivia
Dead Epidemiologists
On the Origins of COVID-19

Rob Wallace

The COVID-19 pandemic shocked the world. It shouldn’t have. Since this century’s turn, epidemiologists have warned of new infectious diseases. Indeed, H1N1, H7N9, SARS, MERS, Ebola Makona, Zika, and a variety of lesser viruses have emerged almost annually. But what of the epidemiologists themselves? Some bravely descended into the caves where bat species hosted coronaviruses, including the strains that evolved into COVID-19. Yet, despite their own warnings, many of the researchers appear unable to understand the true nature of the disease—as if they are dead to what they’ve seen.

Dead Epidemiologists is an eclectic collection of commentaries, articles, and interviews revealing the hidden-in-plain-sight truth behind the pandemic: Global capital drove the deforestation and development that exposed us to new pathogens. Rob Wallace and his colleagues—ecologists, geographers, activists, and, yes, epidemiologists—unpack the material and conceptual origins of COVID-19. From deepest Yunnan to the boardrooms of New York City, this book offers a compelling diagnosis of the roots of COVID-19, and a stark prognosis of what—without further intervention—may come unless we take radical actions now.

ROB WALLACE is an evolutionary epidemiologist with the Agroecology and Rural Economics Research Corps. He is author of Big Farms Make Big Flu and coauthor of Clear-Cutting Disease Control: Capital-Led Deforestation, Public Health Austerity, and Vector-Borne Infection. He has consulted with the Food and Agriculture Organization and the Centers for Disease Control and Prevention.

“In his brilliance and in the extraordinary depth, range, and courage of his thinking, Rob Wallace is unique. Dead Epidemiologists makes sense of the COVID-19 pandemic like no other work I’ve encountered anywhere. This is radical thinking in the very best sense. Written in perfect, pissed-off, punk-rock eloquence and fury.”—BEN EHRENREICH, AUTHOR, DESERT NOTEBOOKS: A ROAD MAP FOR THE END OF TIME
Between Capitalism and Community

Michael A. Lebowitz

Argues that the struggle of workers in common and activities based upon solidarity point in the direction of the organic system of community, an alternative system that produces its own premises, communality, and recognition of the needs of others.

“A peak in his series of interconnected books starting in 1992 with Beyond Capital. It will provoke exactly the deep theoretical struggle that a non-dogmatic, non-authoritarian left needs.”—MICHAEL HEINRICH, AUTHOR, KARL MARX AND THE BIRTH OF MODERN SOCIETY

MICHAEL A. LEBOWITZ is professor emeritus of economics at Simon Fraser University in Vancouver, Canada, and the author of several books.

Crisis and Predation

India, COVID-19, and Global Finance

Research Unit on Political Economy

Explains the influence of global finance over India’s ruling neofascist government in refusing to alleviate the misery of its population as a result of the COVID-19 lockdown. This hard-hitting and carefully researched book offers both a devastating financial analysis and hope for change.

“Illuminates the tentacles that bind developing countries to U.S. capital, and how to move onto a path of democratic economic and social development.” —AMIYA KUMAR BAGCHI, EMERITUS PROFESSOR, INSTITUTE OF DEVELOPMENT STUDIES, KOLKATA

THE RESEARCH UNIT ON POLITICAL ECONOMY, based in Mumbai, India, publishes the journal Aspects of India’s Economy and a range of research publications.
Marx, Dead and Alive
Reading *Capital* in Precarious Times

Andy Merrifield

Karl Marx saw the ruling class as a sorcerer, no longer able to control the ominous powers it has summoned from the netherworld. Today, in an age spawning the likes of Donald Trump and Boris Johnson, our society has never before been governed by so many conjuring tricks, with collusions and conspiracies, fake news and endless sleights of the economic and political hand. And yet, contends Andy Merrifield, as our modern lives become ever more mist-enveloped, the works of Marx can help us penetrate the fog.

In *Marx, Dead and Alive*—a book that begins and ends beside Marx’s recently violated London gravesite—Merrifield makes a spirited case for a critical thinker who can still offer people a route toward personal and social authenticity. Bolstering his argument with fascinating examples of literature and history, from Shakespeare and Beckett, to the Luddites and the Black Panthers, Merrifield demonstrates how Marx can reveal our individual lives to us within a collective perspective—and within a historical continuum. Who we are now hinges on who we once were—and who we might become. This, at a time when our value-system is undergoing core “post-truth” meltdown.

“This enchanting portrait of Marx at work, with his legendary overcoat and shuffling ways, is brilliant, informative, and beautifully written. Merrifield then puts the insights he derives from reconnecting with Marx’s writing to work to illuminate everything from the writings of Gogol and Dickens to the architectural disaster of New York’s Hudson Yards.”—DAVID HARVEY, AUTHOR, *A COMPANION TO MARX’S CAPITAL*
Venezuela, the Present as Struggle
Voices from the Bolivarian Revolution
Cira Pascual Marquina and Chris Gilbert

Venezuela has been the stuff of frontpage news, especially since the death of Hugo Chávez. With predictable bias, mainstream media focus on violent clashes between opposition and government, coup attempts, hyperinflation, U.S. sanctions, and massive immigration. What is less known, however, is the story of what the Venezuelan people—especially the Chavista masses—do and think in these times of social emergency. This revolutionary grassroots movement still aspires to the communal path to socialism that Chávez refined in his last years.

Comprised of a series of compelling interviews conducted by Cira Pascual Marquina and contextualized by Chris Gilbert, the book seeks to open a window on grassroots Chavismo itself in the wake of Chávez’s death. Feminist and housing activists, communards, organic intellectuals, and campesinos from around the country speak up in their own voices, defending the socialist project and pointing to what they see as revolutionary solutions to Venezuela’s current crisis. If the Venezuelan government has shown an impressive capacity to resist imperialism, it is the Chavista grassroots movement, as this book shows, that actually defends socialism as the only coherent project of national liberation.

“Today more than ever, we need to listen to critical voices from the Venezuelan grassroots. The authors have gathered the tools we need to navigate the treacherous straits between state and movements, economic crisis and sanctions, and to chart a radical course toward socialism.”—GEORGE CICCARELLO-MAHER, AUTHOR, BUILDING THE COMMUNE: RADICAL DEMOCRACY IN VENEZUELA
How to Read Marx's Capital

Commentary and Explanations on the Beginning Chapters

Michael Heinrich
TRANSLATED BY ALEX LOCASCO

Capital—Marx’s foundational nineteenth-century work on political economy—is by no means considered an easily understood text. Central concepts such as abstract labor, the value-form, or the fetishism of commodities, can seem opaque to us as first-time readers, and the prospect of comprehending Marx’s thought can be truly daunting. Now, Michael Heinrich, who has spent a lifetime studying Marx’s texts, offers an illuminating new reading.

Paragraph by paragraph, Heinrich provides extensive commentary and lucid explanations of questions and quandaries that arise when encountering Marx’s original text. Suddenly, such seemingly abstruse chapters as “The Labor Process and the Valorization Process” and “Money or the Circulation of Capital” become refreshingly clear. Deploying multiple appendices referring to other pertinent writings by Marx, Heinrich reveals what is relevant about Capital, and why we need to engage with it today. How to Read Marx’s Capital provides an indispensable guide to sorting through the cultural detritus of a world whose political and economic systems are simultaneously imploding and exploding.

MICHAEL HEINRICH taught economics for many years at the University of Applied Sciences in Berlin and was managing editor of PROKLA: Journal for Critical Social Science. He has written in depth on Marx’s critique of political economy. His books include Karl Marx and the Birth of Modern Society and An Introduction to the Three Volumes of Karl Marx’s Capital, perhaps the most popular introduction to Marx’s economic work in Germany.
As digital technology becomes ever more integral to the capitalist market dystopia, it refashions our ways of working, consuming, and communicating. Essays in this volume explore alternative ways of living: from artificial intelligence to the arts, from transportation to fashion, from environmental science to economic planning—all against the background of the COVID-19 pandemic.

CONTENTS:
Greg Albo: "Post-Capitalism: Alternatives or Detours?"
Ursula Huws: "Reaping the Whirlwind: Digitalization, Restructuring, and Mobilization in the Covid Crisis"

Capital and Imperialism
Theory, History, and the Present

WINNER, PAUL A. BARAN–PAUL M. SWEEZY MEMORIAL AWARD

Utsa Patnaik and Prabhat Patnaik

Those who control the world’s commanding economic heights, buttressed by the theories of mainstream economists, presume that capitalism is a self-contained and self-generating system. Nothing could be further from the truth. In this pathbreaking book, radical political economists Utsa Patnaik and Prabhat Patnaik argue that the accumulation of capital has always required the taking of land, raw materials, and bodies from noncapitalist modes of production. They begin with a thorough debunking of mainstream economics. Then, looking at the history of capitalism, from the beginnings of colonialism half a millennium ago to today’s neoliberal regimes, they discover that, over the long haul, capitalism, in order to exist, must metastasize itself in the practice of imperialism and the immiseration of countless people.

A few hundred years ago, write the Patnaiks, colonialism began to ensure vast, virtually free, markets for new products in burgeoning cities in the West. But even after slavery was generally abolished, millions of people in the Global South still fell prey to the continuing lethal exigencies of the marketplace. Even after the Second World War, when decolonization led to the end of the so-called “Golden Age of Capitalism,” neoliberal economies stepped in to reclaim the Global South, imposing drastic “austerity” measures on working people. But, say the Patnaiks, this neoliberal economy, which lives from bubble-to-bubble, is doomed to a protracted crisis. In its demise, we are beginning to see—finally—the transcendence of the capitalist system.

UTSA PATNAIK is professor emerita and PRABHAT PATNAIK is professor emeritus at the Centre for Economic Studies and Planning, Jawaharlal Nehru University, New Delhi. Utsa’s books include The Agrarian Question in the Neoliberal Era and The Republic of Hunger and Other Essays. Prabhat’s books include Accumulation and Stability Under Capitalism, The Value of Money, and Re-envisioning Socialism.
Dissenting POWs
From Vietnam’s Hoa Lo Prison to America Today
Tom Wilber and Jerry Lembcke

As U.S. military personnel returned from Vietnamese captivity in 1973, Americans became riveted by POW coming-home stories. Along with legends of lionized heroes, there were news leaks suggesting that others had denounced the war in return for favorable treatment. What wasn’t acknowledged, however, is that U.S. troop opposition to the war was vast and reached well into Vietnam’s Hoa Lo Prison. Half a century after the fact, Dissenting POWs emerges to recover this history, and to discover what drove their factionalism.

Wilber and Lembcke delve into the postwar American culture that created the myths of the Hero-POW and the dissidents blamed for the loss of the war. What they found was surprising: the class backgrounds of the captives and their pre-captive experience were decisive factors. After the war, the hardcore hero-holdouts—like John McCain—moved on to careers in politics and business, while the dissidents faded from view as the antiwar movement, that might otherwise have championed them, disbanded. Today, Dissenting POWs is a necessary myth-buster, disabusing us of the revisionism that has replaced actual GI resistance with images of suffering POWs—ennobled victims that serve to suppress the fundamental questions of America’s drift to endless war.

TOM WILBER investigated documentation regarding U.S. detainees in the Democratic Republic of Viêt Nam from 1964 until 1973. His research is the source for the 2015 Hà Nội National Film Festival award-winning documentary, The Flower Pot Story. Wilber represents a U.S.-based nongovernmental organization that works on humanitarian projects with Vietnamese organizations. JERRY LEMBCKE is the author of eight books. His opinion pieces have appeared in The New York Times, Boston Globe, and The Chronicle of Higher Education. He is currently Associate Professor of Sociology, Emeritus, at Holy Cross College and Distinguished Lecturer for the Organization of American Historians.

“Dissident POWs who opposed the Vietnam war have been all but forgotten. This fine history will restore them to their proper place in the history of anti-war activism.”—MAURICE ISSERMAN, COAUTHOR, AMERICA DIVIDED: THE CIVIL WAR OF THE 1960S
Sensing Injustice
A Lawyer’s Life in the Battle for Change
Michael E. Tigar

By the time he was 26, Michael Tigar was a legend in legal circles well before he would take on some of the highest-profile cases of his generation. In his first U.S. Supreme Court case—at the age of 28—Tigar won a unanimous victory that freed thousands of Vietnam War resisters from prison. Tigar also led the legal team that secured a judgment against the Pinochet regime for the 1976 murders of Pinochet opponent Orlando Letelier and his colleague Ronni Moffitt in a Washington, DC car bombing. He then worked with the lawyers who prosecuted Pinochet for torture and genocide. A relentless fighter of injustice—not only as a human rights lawyer, but also as a teacher, scholar, journalist, playwright, and comrade—Tigar has been counsel to Angela Davis, Jamil Abdullah Al-Amin (H. Rap Brown), the Chicago Eight, and leaders of the Black Panther Party, to name only a few. It is past time that Michael Tigar wrote his memoir.

Sensing Injustice: A Lawyer’s Life in the Battle for Change is a vibrant literary and legal feat. In it, Tigar weaves powerful legal analysis and wry observation through the story of his remarkable life. The result is a compelling narrative that blends law, history, and progressive politics. This is essential reading for lawyers, for law students, for anyone who aspires to bend the law toward change.

MICHAEL E. TIGAR has worked for over fifty years with movements for social change as a human rights lawyer, law professor, and writer. He has taught at law schools in the United States, France, South Africa, and Japan, and is Emeritus Professor at Duke Law School and American University Washington College of Law. He has authored or co-authored fourteen books, three plays, and scores of articles and essays.

“No one since Clarence Darrow has been in the middle of more of his generation's important legal battles than Mike Tigar. His memoir is must reading for those who wonder if law can still be exciting, heroic, and moral. Tigar proves it is, with wit, high style, and great stories.”—JOHN KEKER, PARTNER, KEKER & VAN NEST; FORMERLY IRANGATE SPECIAL PROSECUTOR
Washington Bullets
A History of the CIA, Coups, and Assassinations
Vijay Prashad

While applauding itself as an oasis of democracy, the United States, in reality, is a superpower intent on infiltrating foreign governments, obliterating entire cultures, and carrying out murderous military interventions in developing countries the world over. Washington Bullets is about the bullets sent by architects of U.S. imperialism—the nation’s political and economic elites—to crush revolutions, assassinate democratically elected leaders, and to destroy hope.

Prashad, relying on his vast library of U.S. government documents, records of multinational corporations, speeches of despots, and memoirs of functionaries, has assembled a fascinating—and appalling—account of just where and how the United States has perpetrated its global “fight against terror” or “drugs” or “communism.”

But embedded in the history of U.S. imperialism is the history of worldwide resistance. Washington Bullets is also a book about hope and the possibilities offered by millions of, as yet, unsung heroes. Reading these stories, we can’t help but see the need to work together to save the earth, and create a new world of real democracy for the oppressed and the masses. “We are the masses,” Evo Morales writes in the book’s preface. “And the masses, over time, will win.”
Value and Crisis
Essays on Marxian Economics in Japan
SECOND EDITION

Makoto Itoh

Marxist economic thought has had a long and distinguished history in Japan, dating back to the First World War. When interest in Marxist theory was virtually nonexistent in the United States, rival schools of thought in Japan emerged, and brilliant debates took place on Marx’s Capital and on capitalism as it was developing in Japan. Forty years ago, Makoto Itoh’s Value and Crisis began to chronicle these Japanese contributions to Marxist theory, discussing in particular views on Marx’s theories of value and crisis, and problems of Marx’s theory of market value. Now, in a second edition of his book, Itoh deepens his study of Marx’s theories of value and crisis, as an essential reference point from which to analyze the multiple crises that have arisen during the past four decades of neoliberalism.

Itoh’s second edition demonstrates an even wider-ranging familiarity with major schools of Marxist thought, summarizing and assessing viewpoints of such theorists as Hilferding, Bauer, Kautsky, Bukharin, Luxemburg, Grossman, Sweezy, the Japanese Marxist Kozo Uno, together with the relevant parts of Capital and a section on the 1930’s Great Depression. Given today’s current emergencies of world capitalism and socialism, says Itoh, we need to work together to resolve new global problems, articulating new issues of Marx’s theories of value and crisis.

MAKOTO ITOH, is Professor Emeritus at the University of Tokyo and a member of the Japan Academy. He taught at the New School, New York University, Harvard University, Cambridge University, the University of London, York University in Canada, and University of Sydney. His books include The Basic Theory of Capitalism and The World Economic Crisis and Japanese Economy.

“Builds a bridge between the Uno tradition of Japan and the Marxism of Europe and the United States.”—COSTAS LAPAVITSA, PROFESSOR OF ECONOMICS AT SOAS, UNIVERSITY OF LONDON

Extraordinary Threat
The U.S. Empire, the Media, and Twenty Years of Coup Attempts in Venezuela
Justin Podur and Joe Emersberger

In March 2015, President Obama initiated sanctions against Venezuela, declaring a “national emergency with respect to the unusual and extraordinary threat to the national security and foreign policy of the United States posed by the situation in Venezuela.” Each year, the U.S. administration has repeated this claim. But, as Joe Emersberger and Justin Podur argue, the opposite is true: It is the U.S. policy of regime change in Venezuela that constitutes an “extraordinary threat” to Venezuelans. Tens of thousands of Venezuelans continue to die because of these ever-tightening U.S. sanctions, denying people daily food, medicine, and fuel. On top of this, Venezuela has, since 2002, been subjected to repeated coup attempts by U.S.-backed forces. In Extraordinary Threat, Emersberger and Podur tell the story of six coup attempts against Venezuela.

This book deflates the myths propagated about the Venezuelan government’s purported lack of electoral legitimacy, scant human rights, and disastrous economic development record. Contrary to accounts in the corporate media, the real target of sustained U.S. assault on Venezuela is not the country’s claimed authoritarianism nor its supposed corruption. It is Chavismo, the prospect that twenty-first century socialism could be brought about through electoral and constitutional means. This is what the U.S. empire must not allow to succeed.

JUSTIN PODUR, is Associate Professor at the Faculty of Environmental and Urban Change at York University. He is the author of Haiti’s New Dictatorship.

JOE EMERSBERGER is an engineer, writer, and activist based in Canada. His writing, focused on the Western media’s coverage of the Americas, can be found on FAIR.org, Counter-Punch.org, and Telesur English.
Radical Seattle
The General Strike of 1919
Cal Winslow
Describes how Seattle’s General Strike was the high point in a long process of early twentieth-century socialist and working-class organization, when everyday people built a viable political infrastructure that seemed, to governments and corporate bosses, radical—even “Bolshevik.”

“With a writing style of vigor and virility, this book is part of the experience of our class, both bold and free, that we need now.”—Peter Linebaugh, Author, Red Round Globe Hot Burning

Cal Winslow, a longtime labor activist and educator, is director of the Mendocino Institute. Among his books are Labor’s Civil War in California and Rebel Rank and File. He edited E. P. Thompson and the Making of the New Left.

CUBAN HEALTH CARE
The Ongoing Revolution
Don Fitz
Fitz combines his deep knowledge of Cuban history with decades of on-the-ground experience in Cuba to bring us the story of how Cuba’s health care system evolved and how Cuba is tackling the daunting challenges to its revolution in this century.

“This is the best written and most accurate work published in years about the history and recent achievements of Cuban health care. The book gives inspiration for people around the world concerned about the future of health care and health itself.”—Howard Waitzkin, Coordinating Editor, Health Care Under the Knife: Moving Beyond Capitalism for Our Health

Don Fitz is a member of the editorial board of Green Social Thought and newsletter editor for the Green Party of St. Louis.
The Return of Nature
Socialism and Ecology
WINNER, 2020 DEUTSCHER MEMORIAL PRIZE
John Bellamy Foster
Continuing a narrative begun twenty years ago with Marx’s Ecology, Foster uncovers a long history of efforts to unite issues of social justice and environmental sustainability that will help us comprehend and counter today’s planetary emergencies.

“A monumental book, a genealogy of ecosocialism, a priceless resource.”
—HELENA SHEEHAN,

JOHN BELLAMY FOSTER is professor of sociology at the University of Oregon and editor of Monthly Review.

The Robbery of Nature
Capitalism and the Ecological Rift
John Bellamy Foster and Brett Clark
Describes how the ecological crisis extends beyond questions of traditional class struggle to a corporeal rift in the physical organization of living beings themselves, raising critical issues of social reproduction, racial capitalism, alienated speciesism, and ecological imperialism.

"Will be widely recognized as an instant classic."
—PAUL BUHLE

JOHN BELLAMY FOSTER is editor of Monthly Review and a professor of sociology at the University of Oregon.
BRETT CLARK is associate editor of Monthly Review and a professor of sociology at the University of Utah.
The Punishment Monopoly
Tales of My Ancestors, Dispossession, and the Building of the United States
Pem Davidson Buck

Using stories of her European ancestors, Buck shows how struggles over the right to punish, backed by the growing power of the state governed by a white elite, made possible the dispossession of Africans, Native Americans, and poor whites.

“A major feat in historical interpretation.”
—FAYE V. HARRISON, AUTHOR, OUTSIDER WITHIN: REWORKING ANTHROPOLOGY IN THE GLOBAL AGE

PEM DAVIDSON BUCK is Professor Emerita of Anthropology at Elizabethtown Community and Technical College in Kentucky. She is the author of Worked to the Bone: Race, Class, Power, and Privilege in Kentucky.

Free Speech and the Suppression of Dissent During World War I
Eric T. Chester

“A splendidly researched and movingly told tale of the suppression of WW I anti-war movements in Great Britain and the United States. A reminder that preserving freedom of speech is crucial to achieving social change.”
—BURT NEUBORNE, NORMAN DORSEN PROFESSOR IN CIVIL LIBERTIES, NYU SCHOOL OF LAW

ERIC T. CHESTER taught economics at the University of Massachusetts in Boston and San Francisco State University. He is the author of several books.
The Dawning of the Apocalypse
The Roots of Slavery, White Supremacy, Settler Colonialism, and Capitalism in the Long Sixteenth Century
Gerald Horne

Argues forcefully that, in order to understand the arrival of colonists from the British Isles in the early seventeenth century, one must first understand the “long sixteenth century”—from 1492 until the arrival of settlers in Virginia in 1607.

"An astonishing reorientation of the violent advent of global modernity and the brutal collisions of Europe with the Americas, Africa, and the Middle East."—JEMIMA PIERRE, UCLA

The Apocalypse of Settler Colonialism
The Roots of Slavery, White Supremacy, and Capitalism in Seventeenth-Century North America and the Caribbean
Gerald Horne

"Reveals the roots of our present socioeconomic nightmare with a force and clarity unrivaled by anything previously available."
—WARD CHURCHILL

GERALD HORNE is John J. and Rebecca Moores Professor of African American History at the University of Houston. He is the author of many books.

</table>
Exhaustively researched, driven by authentic passion for our planet, full of hope and inspiration, Kohei Saito’s Karl Marx’s Ecosocialism: Capital, Nature, and the Unfinished Critique of Political Economy is a very valuable contribution to addressing the environmental crisis of our time.

Karl Marx actually saw the environmental crisis embedded in capitalism. In this major new source, Saito explores Marx’s notebooks—published only recently and still being translated—showing us that Marx has given us more than we once thought, that we can now come closer to finishing Marx’s critique, and to building a sustainable ecosocialist world.

This careful and comprehensive study is a very valuable contribution to addressing the environmental crisis of our time. “Brings a major new source into the debate: Marx’s forthcoming notebooks—published only recently and still being translated—Saito argues note by note that Marx actually saw the environmental crisis embedded in capitalism.” —Michael Heinrich, author, Marx’s Political Economy

“Kohei Saito provides an exciting journey, showing how deeply ecological questions are connected to Marx’s research process. He not only has an excellent knowledge of Marx’s oeuvre, he is also occupied with Marx’s sources. He provides a historical-mathematical analysis of the development of science, economy, and society.” —Brett Clark, author, Facing the Anthropocene

“Kohei Saito’s Karl Marx’s Ecosocialism is a work of expert understanding but also in its analysis of the inherent unviability of capitalist institutions and hopeful message that the ‘revolutionary systemic change’ required to address the deep environmental problems we face is within our grasp.” —Naomi Klein, author, This Changes Everything

“Crisp, eloquent, and deeply informed.” —Mike Davis

Praise for István Mészáros
"For me, István Mészáros is one of the few people who has made essential contributions to the body of Marxist thought. Like Marx, he is not easy to read, but he is definitely worth the effort."—MICHAEL A. LEBOWITZ, author, The Contradictions of “Real Socialism”

"No living Marxist philosopher has done more to clarify and to show the continuing relevance of Marx’s most important theories than István Mészáros."—BERTELL OLLMAN, author, Dance of the Dialectic

"István Mészáros is one of the greatest philosophers that the historical materialist tradition has yet produced. His work stands practically alone today in the depth of its analysis of Marx’s theory of alienation, the structural crisis of capital, the demise of Soviet-style post-revolutionary societies, and the necessary conditions of the transition to socialism."—JOHN BELLAMY FOSTER, from the foreword

ISTVÁN MÉSZÁROS is a world-renowned philosopher and critic. He left his native Hungary after the Soviet invasion of 1956. He is professor emeritus at the University of Sussex, where he held the chair of philosophy for fifteen years. Among his many books are Social Structure and Forms of Consciousness Volumes I and II, The Work of Sartre, The Structural Crisis of Capital, The Challenge and Burden of Historical Time, Beyond Capital: Toward a Theory of Transition, and Marx’s Theory of Alienation.

Culture as Politics
Selected Writings of Christopher Caudwell
Edited by David Margolies
Selected essays of one of Britain’s most innovative Marxist writers.
$25.00 l 192pp
Samir Amin was born in Egypt in 1931 and received his Ph.D. in economics in Paris. Determined such changes in the polarized world system as the industrial growth Marxian “law of value” in the form of a “law of globalized value” whose operations permitted the northern proletariat. To account for this new type of rent he extends the scaling of radically different wages paid for the same labor in countries of equally interesting is his theoretical concept of “imperialist rent,” derived from generated within Marx’s original two-department model. Surplus too large to be realized by the consumption and investment purchases necessitated by the capitalist tendency constantly to produce an economic collapse of 2008. Generalized, financialized, and globalized oligopolies following on the financial advances several important theoretical concepts extending traditional Marxian views of capitalist evolution. The Law of Value and Historical Materialism published as in his new extensively revised and expanded edition of this book, originally written before the emergence of imperialism, could provide no explanation for the persistent “underdevelopment” of the countries of the “global South,” amin as a decisive factor in capitalist accumulation, could provide no explanation for considering that Marx’s views of capitalist evolution.

Women in Weimar and Nazi Germany
Edited by Renate Bridenthal, Atina Grossmann, and Marion Kaplan

$22.00 | 364pp
Clive Y. Thomas, a Guyanese economist, has been Director of the Institute of Development Studies at the University of Guyana. His other works include Poor and the Powerless of economic development in the Caribbean, Clive Thomas traces the history of laborers, peasants and workers, the unemployed—the region's subjection to historians, and theorists on a range of topics unparalleled in Left publishing.

This extraordinary work deserves to be called monumental for its industry in Cuba, for the imposing originality of its approach, and for the collection of plantation records for the national archives. His masterwork, Manuel Moreno Fraginals (1920-2001) was a celebrated Cuban historian.

Renate Zeha, born in 1942, has occupied herself with the problems of the Third World as her field of study. She received her education in North and Black African studies. She is the author of numerous works, including the New Left.

The bulk of the book is dedicated to Thompson's famous polemic against self-determination and its relationship with socialism. Originally written in Polish, Collected here are Rosa Luxemburg's writings on the question of national self-determination and its relationship with socialism. Originally written in Polish, Collected here are Rosa Luxemburg's writings on the question of national self-determination—was indeed widely known. Many Marxists who have canonized Rosa Luxemburg's ideas and stand out as her political and theoretical contributions.

Born in Poland, Luxemburg was active in and helped to found socialist parties in both Poland and Germany, and became famous for her theoretical contributions. Born in 1871, Rosa Emma Luxemburg moved to Germany in 1890 where she joined the Social Democratic Party of Germany. In 1894 she joined the Bolshevik Party and was active in the Zimmerwald conference. Luxemburg was a political activist and writer on the need to build a victorious movement for revolutionary change.

In later years, Luxemburg became a leading figure in the Russian Revolution. She was a member of the Bolshevik party and worked closely with Lenin. In 1917, she helped to organize the Bolsheviks' revolution in Russia. During the Civil War, she worked to unite the workers and peasants behind the Bolsheviks. Despite her efforts, she was largely unsuccessful in this goal.

Luxemburg was a strong critic of the Mensheviks and their support for the Provisional Government. She believed that the working class must lead the revolution and that the Mensheviks were in favor of compromise with the Provisional Government. Her ideas were seen as too radical by many of her fellow Bolsheviks, and she was eventually expelled from the party.

Despite her political setbacks, Luxemburg continued to be a leading voice for the revolutionary cause. She wrote extensively on a wide range of subjects, including economics, sociology, and philosophy. Her influence continues to be felt today, and she is considered one of the most important thinkers of the twentieth century.
Montreal to work for CBC radio. Sydney Gordon, an editor and writer, later lived in the U.S. Office of War and subsequently returned to his hometown of Bethune and his staff in Madrid. During the Second World War he worked as a writer in the U.S. Office of War and subsequently returned to his hometown of Bethune and his staff in Madrid. During the Second World War he worked as a writer in the U.S. Office of War and subsequently returned to his hometown of Bethune and his staff in Madrid.
